

Chimney Cowl Products

Standard Terracotta Cowl - Strap Fixing

The Standard Chimney Cowl is available in Terracotta and Galvanised finishes. The cowl is simple to fit and reduces rain entry. Each cowl is fitted with a mesh grill which also prohibits any animal entering the chimney whilst maintaining flue efficiency. The Standard Cowl provides good ventilation and gives added protection against wind and rain entry and subsequent structural damage caused by freeze/thaw cycle.

Features:

Ready to fit, no tools required and fits dead or live chimneys
High Dome allows for effective sweeping
Suitable for all types of flue
Fits flues and pot sizes from 125mm (5" to 250mm (10")
Includes a stainless steel strap.

(A Stainless steel model is available and should be specified when highly corrosive fuels are to be used. Please contact us direct.)
